

ENGINEERING SERVICES

**DESIGN ENGINEERING FROM A FIELD PERSPECTIVE
WITH OVER \$250,000 IN TEST EQUIPMENT**

Let IWATSI provide you with decades of engineering experience from the perspective of a factory field designer that happens to be a *Registered Professional Engineer* and a *Lifetime Member of IEEE!*

DESIGN | ENGINEERING SERVICES INCLUDE....

Distributed Antenna Systems(ERCES)
Design / Review / P.E. Approval
Interference Detection and Mitigation
System Analyzation
Project Management
Engineer-Furnish-Install (EFI)
System Design / Construction
System Optimization
System Integration
Intermodulation Studies
End User Equipment Training
Radio Paging Systems
Paging Systems Engineering
User Needs Assessment
System Performance Troubleshooting
Technology Assessment
Request for Information
Preparation of Acceptance Test Plans
Request for Proposal

Execution of Acceptance Test Plans
Vendor Relationship
FCC Licensing and Carey Curves
Budget Cycle Management
Radio Frequency Coverage Verification
Radio Frequency Engineering
Drive Testing
Quality Audits
Project Management
Link Budget
Antenna Systems
Nurse Call Systems Integration
Coverage Maps
Simulcast Radio Design
Site Selection Process
System Performance and Auditing
FCC and ETA Certification Testing
